The Oth Business Correx Por.—We have had in use now, for over two menths, one of these much talked of coffee pots, and we find that it does, in all respects, what is claimed for it. You may belt coffee in the Old Dominion for any length of time you choose, and yet lose none of the deficate aroma or strength. This desirable end is attained by a simple, but ingentious, contrivance in the shape of a condenser, with double syphons, by means of which the aroma bearing vapor, which assally goes all over the house or up the chimney, is condensed and thrown back into the coffee-botter, and you have its deficaces have not the coffee-drinking, we never found anything equal to what we now have early at our morning neal. It is the perfection of coffee.—Philadelphia Remaing Journal. New York Millinery Emporium, 32 Union St., Nashville, Tenn.

MARKET ST., NASHNILLE, W. E. CHILDS & CO.'S PATENT Elastic Fire and Water Proof CEMENT ROOFING.

HE undersigned purchased the State Right for Tennessee of the above patent about one year age and has since introduced it extensively in various portions of the State, asks new the attention of build ers, and the public generally, to examine its superiority over other modes of Rooling.

The material forms a hard and smooth surface. It is impervious to water, clastic and flexible; it will perfectly resist any ordinary exposure to fire; it is cheaper than any roof of the old style, and I am sure it will give better satisfaction; as to its durability there is no question. It is the best thing ever invented for minting of old leaky tin roofs.

The Cement will be furnished to those at a distance with directions for using.
